ALL-IN-ONE TEST STATION FOR VISUAL INSPECTION

INTELLIGENT VISUAL INSPECTIONS OF SERIAL COMPONENTS
VIA CUSTOMIZABLE MATERIAL TEST DEVICE

TEST STATION FOR VISUAL INSPECTION BY VIZAAR®

YOUR INDIVIDUAL SYSTEM FOR SMOOTH VISUAL INSPECTIONS OF SERIAL COMPONENTS

For visual inspections of serial components one needs to have a steady hand. One wrong movement with the endoscope can lead to an unwanted collision with the lens system. In order to keep your inspections system physically intact vizaar has developed the All-in-One test station vuDESK.

vuDESK comes with an integrated test device. The test object is simply plugged in. Test position and test depth are locked. This will keep the endoscope right on course during the entire test process.

But vuDESK offers even more: It ensures reproducible work results and even faster test processes. To analyze the collected data, the standard edition of vuDESK comes with our one box platform INVIZ® MATRIX for Remote Visual Inspections (RVI). Naturally other components like lighting or work height can be freely chosen and modified, too. Just contact us for further information. We will provide you with your individually customized system.

TAKE CONTROL

Create precise documentations with the one box platform INVIZ® MATRIX for Remote Visual Inspections (RVI) including 10.4" LCD monitor and touch screen.

STAY FLEXIBLE

Adapt the test station to your needs and specifications. Choose and modify the lighting, monitor holder, clipboard, cable conduits and lockable drawer. Adjust the working height freely for your comfort and ergonomic work.

VUDESK

ENDING YOUR VU®

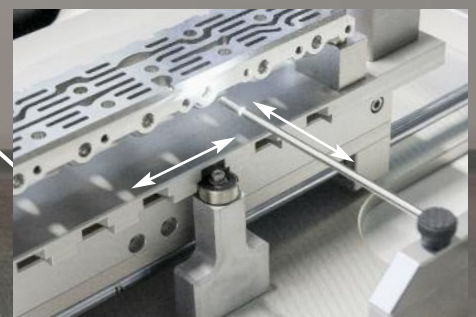

SHED SOME LIGHT ON THE DARK

Ensure perfect vision and optimal luminosity due to our high-performance LED light source.

OPTIMIZE YOUR INDIVIDUAL WORKFLOW

Switch to another endoscope in the blink of an eye. The integrated changing device makes it possible.

INCREASE PRODUCTIVITY AND ENSURE SECURITY

Avoid contact between the lens system and the test object by locked positions of the endoscope. Ensure reproducible work results.
